EXPERIENCE & AWARDS

Award for Excellent Graduates

Top 10% Graduates in 2022

January 2022

Outstanding Individuals in Innovative Practices in OUC

For the outstanding contribution in the MCM Modeling Contest in 2021

December 2021

2021 Mathematical Contest in Modeling (MCM) Finalist

Participant as group member

Spring 2021

- Problem B : Fighting Wildfires
- Work: Programming, Visualization, Thesis writing
- Achieved Finalist (Top 1%)

Outstanding Student Award

2019 ~ 2020 Academic Year

December 2020

Second Class Scholarship

2019 ~ 2020 Academic Year

October 2020

Outstanding Student Award

2018 ~ 2019 Academic Year

September 2019

First Class Scholarship

2018 ~ 2019 Academic Year

September 2019

COURSES

Computer Organization Principle (94)

Signals and Systems (92)

Elements of Information Theory (92)

Software Systems Analysis and Design (98)

Database System (90)

PROJECTS

A lightweight book information management system | *Team leader*

January 2022 – April 2022

- The database is designed and achieved based on C, visualized on Qt5.0
- Using the method of Software Engineering to complete the project

TECHNICAL SKILLS

Languages: C, Matlab, Python

Platforms: Anaconda, Matlab, Qt5

Skills: Latex, Lightroom, Photoshop
